**What Is the Optimal Bar Top Height? - ThoughtCo**  
42-inches is the optimal and most ergonomic height for a top that services both the seated and standing user. With a bar stool of the proper height, it is comfortable to sit at a 42-inch bar. It is also a comfortable height for most people to lean against. Additionally, the bar top is in easy reach of a standing person so they can set their food and drink down without leaning over.
