Here are two lessons on theories of long term memory, covering the distinctions between episodic, semantic and procedural memories, associated research studies and critical issues.

Humeur Wikipédia

L'humeur est un état d'âme persistant. Elle diffère des motions en ceci qu'elle est moins spécifique, moins intense et moins influencée par des événements récents, même si des motions telles que la peur et la surprise sont des sentiments parfois sévères et pouvant durer des heures, voire des jours [1]
