[Vehicle Diagnostic Monitoring System](#), ARSLAN SHAHID ARSLAN TARIQ FAISAL M. SALEEM
Abstract Vehicle Diagnostic Monitoring System is a new dimension in the field of Automobiles. It consists of an On-Board Diagnostic System which is a core element of all the modern day vehicles, and a communication system. US5761560A - Interchangeable lens having a data outputting ...

A camera system includes a camera body and an interchangeable lens. A microcomputer for operation control is provided on each of the camera body and the Interchangeable lens having a data outputting function ...

The interchangeable lens is attachable to either type. When the interchangeable lens is attached to the second type camera body and the microcomputer provided in the lens tries to perform communication of the data that the second-type camera cannot communicate, the time required for the communication is completely wasted. factorial randomised controlled: Topics by Science.gov
