Some are now arguing that feminism was an idealistic political movement born of the 1960s which has failed to measure up to the harsh realities of the 1980s. Yet the potential of feminism for the transformation of society has hardly been realized. Feminism is far from dead or dying, but feminists are often divided, confused and weary.

Feminism and the Contradictions of Oppression is a penetrating and comprehensive study of the development of feminism over the last thirty years. The first part of this major new textbook examines feminist theory and feminist political strategy. The second section examines how contradictions of class, race, subculture and sexuality divide women.
