This book is very informative in it's teaching of how to translate written word into storyboards. I picked this book up over a year ago with the intention of using this once I finish my first script, which I am now working on. Begleiter's work is definitely one to keep around for reference. I still browse through this book when I need explanations (or inspiration).

From Word to Image is one of the most invaluable film guides I've ever read better than a year of film school. The visualization process of moviemaking is described with startling clarity and intelligence. Marcie Begleiter is the go-to teacher for learning the concepts and techniques behind creating a visual script.
