Having said that, and feeling better about myself, it's time to dispel some of the myths about indoor grills and indoor grilling. First of all, unless you are using a gas powered (and vented) indoor grill you can not even get close to the flavor of outdoor grilling in an indoor appliance. I don't care what anyone has told you, it's just not possible.

Indoor grilling can be a great substitute for the real, smoky thing the key is just knowing when to stay in and when to step out. Steaks, chops, sh llets and thin cuts of meat are ideal for cooking on a stovetop grill pan or indoor electric grill. Larger cuts and whole poultry taste best when grilled on an outdoor barbecue, where you can use indirect, ambient heat to cook the food evenly.
