### Auditory Nerve Disease, New Classification: Auditory and ...

It is suggested that the terms auditory neuropathy only, auditory-vestibular neuropathy, and vestibular neuropathy only in AN could be used to characterize these patients with involvement of only the auditory branch of the VIII cranial nerve in both the auditory and vestibular branches. This usage may help to categorize this disorder more pathophysiologically.

### Malformation of the Eighth Cranial Nerve in Children ...

Several authors believe that hypoplasia of the auditory

nerve in the majority of cases is a form of auditory neuropathy, because they have found in their series up to 70% of patients with aplasia and hypoplasia of the auditory nerve and with electrophysiological characteristics of auditory neuropathy. 7 The Sydney Cochlear Implant Centre (SCIC) presented a series of 80 children with auditory neuropathy where the majority obtained favourable outcomes 8 with cochlear implants.
