The following is a list of the most cited articles based on citations published in the last three years, according to CrossRef.

[Neuropathology - Wikipedia](#)

Neuropathology is the study of disease of nervous system tissue, usually in the form of either small surgical biopsies or whole-body autopsies. Neuropathologists usually work in a department of anatomic pathology, but work closely with the clinical disciplines of neurology, and neurosurgery, which often depend on neuropathology for a diagnosis.
