Committee on Health Research, which held its forty-fifth session in November 2005. In January 2006 the 117th session of the WHO Executive Board received both a position paper on WHO's role and responsibilities in health research

Operations Research

Abstract We study a two-stage deterministic differentiated-product oligopoly competition game, called the quantity precommitment game, in which firms compete on quantity in the first stage and then compete on price in the second stage.

Framework for Operations and Implementation

Research in ...

Operations research (OR) is critical in providing scientific evidence for health and disease control programs to improve their quality and learning as they scale up. In the context of aligning international health support, the need to develop a framework endorsed and recognized by a wider professional community as a commonly-used instrument for designing, planning, implementing and
