[Philosophy of Artificial Intelligence - Bibliography ...](#)

The philosophy of artificial intelligence is a collection of

issues primarily concerned with whether or not AI is possible -- with whether or not it is possible to build an intelligent thinking machine. Also of concern is whether humans and other animals are best thought of as machines

#### **Philosophy of artificial intelligence - Wikipedia**

Artificial intelligence has close connections with philosophy because both share several concepts and these include intelligence, action, consciousness, epistemology, and even free will. Furthermore, the technology is concerned with the creation of artificial animals or artificial people (or, at least, artificial creatures) so the discipline is
