[Virtual reality in medicine - PubMed Central \(PMC\)](#)  
Systems based on virtual reality offer a unique opportunity for the training of professional surgical skills on a wide scale and in a repeatable manner, in a way similar to the routine training of pilots. Contrary to the preoperative planning systems, which require an extreme level of accurate registration and alignment of tissue (data fusion), medical and surgical education and training rely

[A Virtual Reality Based Simulator for Gynecologic Exam ...](#)  
In the last years, realistic training has been proposed and offered by the use of virtual reality (VR) systems. This work presents a VR based simulator for gynecologic exam training - the SITTEG.

[Endoscopic surgery training using virtual reality and ...](#)  
Surgical education has traditionally depended on the apprentice-mentor relationship and is the basis of residency training programs. Physical patient models like the pelvi-trainer lack realistic anatomical features. The concept of virtual reality (VR) surgical simulators is attracting considerable attention. Progress in computing performance allows the development of training systems for endoscopic surgery based on VR technology.
