[Temperate Fruit Crops in Warm Climates | A. Erez | Springer](#)

As a member of the working group (WG) on "Temperate Zone Fruit Trees in the Tropics and Subtropics" of the International Society for Horticulture, I was aware of the lack of readily available information needed in many warm-climate locations where temperate fruit crops are grown.

[Fruits of temperate regions & discussion](#)

In temperate climates fruits are considered more as an agreeable addition to the diet than as a staple food. However, in tropical areas fruits may often be the main, and even the only, source of food. Crops such as banana, plantain, date, fig, coconut and breadfruit are staples.
