[The Limits to Growth Club of Rome](#)

The Limits to Growth is the nontechnical report of their findings. The book contains a message of hope, as well: Man can create a society in which he can live indefinitely on earth if he imposes limits on himself and his production of material goods to achieve a state of global equilibrium with population and production in carefully selected balance.

The Limits to Growth - Wikipedia

The Limits to Growth (LTG) is a 1972 report on the computer simulation of exponential economic and population growth with a finite supply of resources.

Funded by the Volkswagen Foundation [3] and commissioned by the Club of Rome , the findings of the study were first presented at international gatherings in Moscow and Rio de Janeiro in the summer of 1971.
